TECH SKILLS

Languages

Javascript | HTML
CSS | JSX

Front End

React | React-Native
Hooks | Webpack

Back End

Axios | Express
MySQL | PostgreSQL
MongoDB/Mongoose | Node.js

Other Tools

Git/Github | Node
Underscore | Docker/Dockerhub
Nginx | Jest
React Testing Library | AWS ECS
CircleCi | New Relic
Loader.io | Postman

EDUCATION

CERTIFICATE OF COMPLETION

Software Engineering
Immersive
Hack Reactor
2018 – 2018

BACHELORS DEGREE PARTIAL

in Computer Science
National University
2018 – 2018

ASSOCIATES DEGREE in

Computer Science
National University
2018

INTERESTS

Travelling
Mountain/Road Biking
Journaling
Motorcycles

SOFTWARE APPLICATIONS

github.com/gabinochacon8

VENDICATOR | React Native, Node

Designed a personal mobile application that allows vendors to indicate their location so anyone can find a specific product they're looking for. Designed for the smallest vendors in mind including the elote person, a garage sale, flower person, etc.

- Implemented **React Native** as the framework to design the app with a smooth UI experience with different tabs and search capabilities
- Integrated map using **react-native-maps** that shows most current vendor locations within 2000 meters

THE INIGO MONTOYAS | Express, Node, Nginx, Loader.io, Docker, K6, PostgreSQL

Designed a scalable back end API for a legacy e-commerce web app to accommodate production level traffic

- Developed **Postgresql** database, with ETL methods, and **Express** server to make a fast dataset API
- Employed **Docker** to containerize images of database and server for a smooth launch on **AWS** raw ec2 instances
- Utilized **k6** for local load testing, and **Loader.io** for cloud based load testing and horizontally scaled with additional ec2 instances and an **Nginx** load balancer to achieve a throughput of 1000rps with less than 1% error rate and a latency of less than 2000ms

TRICERATOP REPUBLIC | React, Node, Webpack, Jest, Axios, RTL, SC

A retail e-commerce application complete with articulate design and easy to follow User Interface(UI)

- Formulated product overview feature using **React** and bundled with **Webpack** to meet 100% of the deliverables specified by the business requirements document from the client
- Styled each component using **Styled Components(SC)** for a smooth looking UI
- Tested with **Jest**, **React Testing Library(RTL)**, and **CircleCI**, to reach 70% test coverage

EXPERIENCE

MOBILE EXPERT

T-MOBILE | 2014 - 2018

Mobile device and activation sales for consumer and business accounts

- Won a Winners Circle award where I was top 10% in the nation
- Used Salesforce to manage business accounts
- Samsung ambassador

DIESEL MECHANIC

US MARINE CORPS | 2010 - 2014

Non-Commissioned Officer - Corporal of Marines

- Lead mechanic during deployment and part of a small crew with the wrecker team tasked to fix or retrieve disabled vehicles in country
- Became a diagnostics chief able to sign off on echelon 3 tickets
- Had expert marksmanship for 4 years straight
